PROENERGY APPOINTS NEW VICE PRESIDENT OF EPC

SEDALIA, Mo. (April 21, 2015) – ProEnergy is pleased to announce the addition of Gavin Gaul as Vice President of Engineering, Procurement & Construction (EPC). Gavin's primary responsibilities include leading the implementation of ProEnergy's EPC strategy, as well as overseeing the engineering, scheduling, procurement, subcontracting, construction, commissioning and start-up of projects.

Gavin brings over 30 years of experience in the development, management and engineering of major domestic and international projects. Prior to joining ProEnergy, Gavin held numerous Engineering and Project Director roles at Fluor and Enron Engineering and Construction Company, and served as Senior Project Engineer at Westinghouse. Gavin received his B.S. in Mechanical Engineering from Purdue University.

"Gavin brings in-depth knowledge of every aspect of an EPC project, from concept to commissioning and plant management," said ProEnergy CEO Jeff Canon. "His extensive project management experience is paramount to the continued growth of our EPC division.

ProEnergy is responsible for the construction, management, operations, maintenance, and repair services for energy generation facilities and equipment around the world. ProEnergy has U.S. offices in Sedalia, Missouri; Houston, Texas; and Fort Collins, Colorado; and international locations in a number of countries including Canada, Argentina, Venezuela, Brazil, Panama, Pakistan and Angola. More information is available on ProEnergy's website at www.proenergyservices.com.
