PROENERGY APPOINTS NEW VICE PRESIDENT OF FIELD SERVICES

SEDALIA, Mo. (August 4, 2015) – ProEnergy is pleased to announce the addition of Curtis Odum as Vice President of Field Services. Curtis’ primary responsibilities include driving the strategies of ProEnergy’s Field Service divisions including Turbine Outage Maintenance and Boiler, Mechanical and Fire Protection Services.

Curtis brings over 25 years of experience in Project Management, Technical Field Advisement and Quality Assurance to his new role. Prior to joining ProEnergy, Curtis held numerous Project Management, QA/QC and Superintendent positions for companies including Halliburton, Inc. and CEPSA. Over the last 13 years Curtis was a Director then Vice President of Field Service Maintenance, Americas for Wood Group/Ethos.

“We are excited to have Curtis join and lead our Field Service team as we sharpen our focus on execution excellence,” said Vice President of Energy Services, Mike Brady. “Curtis’ experience and expertise will be invaluable in leading our global services execution and expanding customer base.”

ProEnergy is responsible for the construction, management, operations, maintenance, and repair services for energy generation facilities and equipment around the world. ProEnergy has U.S. offices in Sedalia, Missouri; Houston, Texas; and Fort Collins, Colorado; and international locations in a number of countries including Canada, Argentina, Venezuela, Brazil, Panama, Pakistan and Angola. More information is available on ProEnergy’s website at www.proenergyservices.com.
