ROCKLAND CAPITAL SELECTS PROENERGY FOR O&M SERVICES

SEDALIA, Mo. (March 10, 2015) – ProEnergy has been selected as the operations and maintenance provider for Sabine Cogen, L.P., a wholly-owned subsidiary of Rockland Power Partners II, LP. Under the contract, ProEnergy will provide site management, planning, scheduling, and maintenance services.

Sabine Cogen, L.P., located in Orange, Texas, is a 100 megawatt combined cycle cogeneration facility powered by two GE Frame 6B natural gas combustion turbine engines and a Siemens Steam Turbine. The facility has been operating commercially since January 2000, and provides steam and power to a nearby rubber plant.

“We are extremely pleased to further our working relationship with Rockland, providing the O&M for Sabine,” said ProEnergy CEO, Jeff Canon. “Our commitment to maintaining the highest standards of safety, performance and compliance will contribute to the achievement of our mutual operational and financial goals.”

ProEnergy is responsible for the construction, management, operations, maintenance, and repair services for energy generation facilities and equipment around the world. ProEnergy has U.S. offices in Sedalia, Missouri; Houston, Texas; and Fort Collins, Colorado; and international locations in a number of countries including Canada, Argentina, Venezuela, Brazil, Panama, Pakistan and Angola. More information is available on ProEnergy’s website at www.proenergyservices.com.

Rockland Capital, a private equity firm founded in 2003, is focused on the acquisition, optimization and development of companies and projects in the North American power sector. The firm manages Rockland Power Partners II, Rockland Power Partners and Rockland Capital Energy Investments.
